

**SUPPLEMENTARY FIGURE**

**Supplementary Figure 1.** (A) The expression of PVT1 in osteosarcoma cells after the co-culture with increasing amounts of BMSC-EXO (from 0 to 40 μg/mL) for 48 h. (B) The concentration of exosomes which were isolated from PVT1-interfering BMSCs (si-PVT1) or control BMSCs (si-control). si-PVT1, small interfering RNA against PVT1. (C) The expression of PVT1 in human normal osteoblast cell line (hFOB 1.19) after the co-culture with increasing amounts of BMSC-EXO (from 0 to 40 μg/mL) for 48 h. \*p<0.05, \*\*p<0.01 vs 0 μg/mL BMSC-EXO.
