

SUPPLEMENTARY FIGURES

Supplementary Figure 1. The box plots showed mRNA expression of total 14 SLC39A families in lung adenocarcinoma and normal lung tissues by analyzing GSE31210 dataset. (A-N). SLC39A1 – SLC39A14. * P<0.05; SLC39A, solute carrier family 39.

Supplemental Figure 2. Overall Survival of SLC39A families in patients with lung adenocarcinoma by analyzing GSE31210 dataset. (A–N). SLC39A1 – SLC39A14. SLC39A, solute carrier family 39.
