

SUPPLEMENTARY FIGURE

Supplementary Figure 1. ZD induced the protein pro-inflammatory mediators in the distal small intestine. (A) CCL2, (B) CXCL2, (C) CXCL5, (D) IL-1 β , (E) IL6, and (F) TNF- α protein were measured by ELISA. Horizontal bars indicated the average protein levels. * $P < 0.05$, ** $P < 0.01$, and *** $P < 0.001$ vs ZS group, $n=6$.
