

SUPPLEMENTARY FIGURE

Supplementary Figure 1. Representative western blot images. Representative western blot images, three replicates per group. Total protein image acquired by staining blot in ponceau S stain prior to blocking of membrane. Abbreviations: CSE: Cystathionine-beta-lyase; CBS: Cystathionine-Beta-synthase; MPST: 3-Mercaptopyruvate Sulfurtransferase; ETHE1: Ethylmalonic encephalopathy 1 protein; TST: Thiosulfate Sulfurtransferase.
